FOR IMMEDIATE RELEASE

**The Indy Radio Factor
Now Available via FTP
and Satellite!**

Many Radio Stations have asked for strong weekend programming to compliment their weekday News/Talk lineup. Now that program is here!

The Indy Radio Factor is a hard-hitting, fast-paced program that tackles the tough issues facing our nation. Most media outlets report the news. Host Sean John and Co-host Ryan Smith talk about the ideas behind the news and the Legislation making the news.

The Indy Radio Factor is not the same old Weekend Talk Show It's a Talk show with a purpose...to make sense of current events in an entertaining and thought-provoking way. **The Indy Radio Factor** is your common sense Political Talk Radio Show.

The Indy Radio Factor is a quality show that will be a strong addition to your weekend programming. No longer will your listeners only have reruns to satisfy their hunger for relevant talk nor will they need to wait for Monday to hear a conservative take on breaking news. If you want strong weekend programming that meets your audience need for news and commentary, **The Indy Radio Factor** is your solution.

Just hear what one of their previous guests have said...

Tom Gaitens-FreedomWorks.org--Florida Field Coordinator

Wow...You have to go the INDY RADIO FACTOR to get the real deal on Politics in America! Sean John is the kind of Radio Host that speaks from the Heart with a Mind to what really matters. Sean is the embodiment of what makes America Great, fidelity to the Constitution and a love of Liberty and a remarkable way to communicate these ideals. On a weekly basis I send my friends to the INDY FACTOR as kind of a Mind Wash from the entire gunk they build up listen/watching MSM, what I call the Manufactured Media...Sean is a regular guy doing extraordinary things, just by doing what he loves...Thanks Sean for bringing sanity to my Weekends!

GENERAL INFORMATION

The Indy Radio Factor is syndicated and will be available to your listening audience on August 1 when the program will be available "on the bird". The program has been wildly successful across the United States since its inaugural broadcast on 12-11-08 as a Podcast. The IRF is enjoying exploding success as evidenced by our Twitter comments and a nationwide listener base.

WHY The IRF WILL SUCCEED IN YOUR MARKET

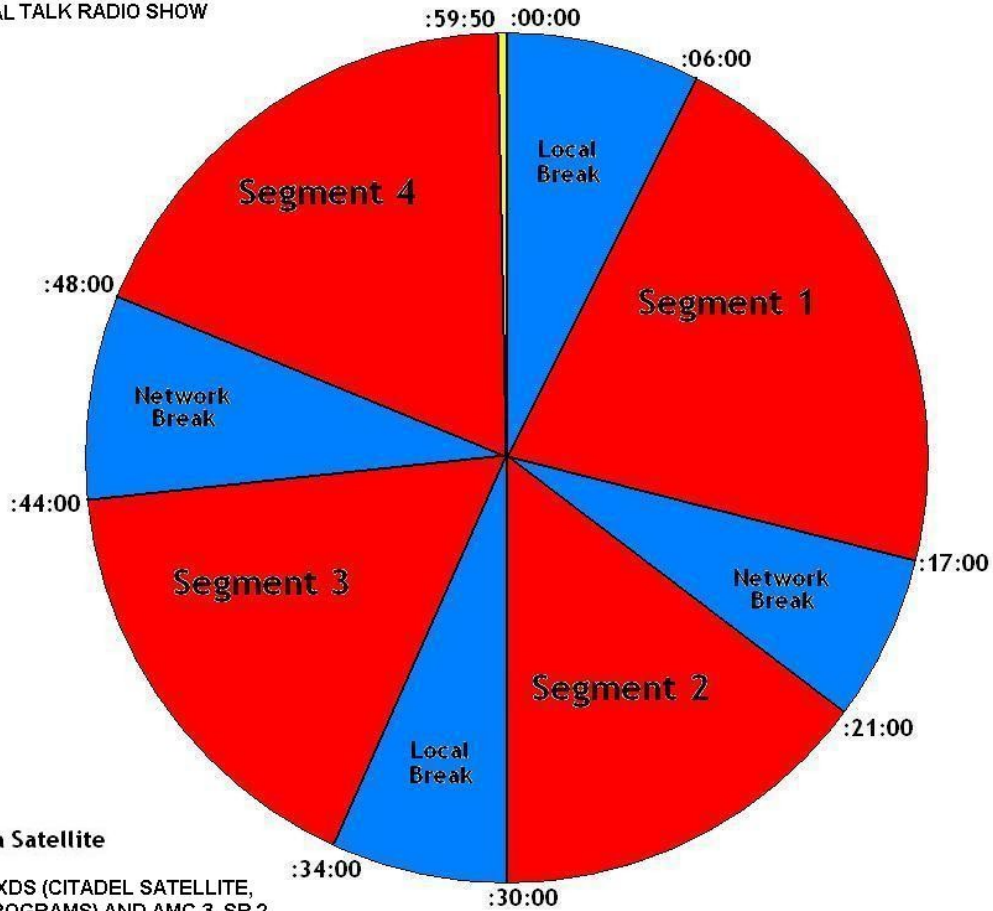

The IRF is enjoying incredible success for a number of reasons but the bottom line is we happen to be the RIGHT program in the RIGHT political climate at the RIGHT time. Since the election of Obama, our Country has gone into a tailspin with higher Taxes, Big Corp. Bailouts, A choke hold on the freedom of speech and the fact that Obama has assembled the most gun hating administration in the history of our country. With the democrats controlling both houses of congress, the public is fearful, as well they should be. The administration has not hidden the fact that they are seeking limits on the rights of law-abiding citizens and with the help of their allies in the mainstream media, the push for Social regulation is on.

Whether your station is in a Democrat or Republican area, the fact is that Americans are incredibly passionate about their rights. IRF works well in BOTH areas because Americans are STARVING for this type of programming and more importantly for you, there is NO shortage of advertisers for this type of format! With our primary focus being the Nations Political System of Government and all related topics, IRF will quickly become one of your listeners favorite programs!
